Aiswarya H

aiswaryalakshmii005@gmail.com | 7736002383 | Palakkad, Kerala | LinkedIn | GitHub | Portfolio

PROFILE

Artificial Intelligence graduate with hands-on experience in Python, machine learning model development, production-grade ML pipelines, and LLM-based agent systems. Proven ability to design, train, and deploy AI solutions across NLP, deep learning, and predictive analytics domains. Additional background in teaching AI, Machine Learning, and Deep Learning has strengthened technical communication skills.

PROFESSIONAL EXPERIENCE

RPA Intern 09/2026 – Present
ProdEngines Private Limited (On behalf of SpeeHive Solutions FZCO) Palakkad, Kerala

- Built a TypeScript and Playwright automation framework for the maritime platform using Page Objects and a service layer for voyage data.
- Automated voyage lookup, port queue updates and progress reporting, reducing manual effort.
- Improved run reliability with dialog handling, site-switching logic and global authentication setup, cutting failed runs.

Assistant Professor 07/2025 – 04/2026
AJK College of Arts and Science Coimbatore, TN

• Delivered undergraduate courses in AI, Machine Learning, and Deep Learning.
• Conducted hands-on labs using Python, TensorFlow, and scikit-learn; mentored students on end-to-end capstone ML projects.
• Designed assignments on data preprocessing, model training, evaluation metrics, and model optimization.

Artificial Intelligence Intern 08/2024 – 02/2025
X Boson AI Palakkad, Kerala

• Designed and implemented LLM pipelines for text summarization and multi-class text classification tasks using Python.
• Conducted data preprocessing and exploratory data analysis (EDA) on large-scale datasets to improve downstream model performance.
• Collaborated cross-functionally with product and engineering teams to deliver AI solutions for real-world client problems.

Machine Learning Internship 07/2022 – 08/2022
Techvolt Software Pvt. Ltd Coimbatore, TN

• Developed machine learning models for predictive analytics, improving forecast accuracy by 15%.
• Presented model findings and insights to team leads, contributing to client project strategy development.

SKILLS

Languages: Python

ML & AI: Machine Learning, Deep Learning, Convolutional Neural Networks, Natural Language Processing, Large Language Models, XGBoost, scikit-learn, TensorFlow

Analytics & Tools: Tableau, Data Preprocessing, Streamlit

PROJECTS

- **Customer Churn Prediction & Retention Platform | MLOps Pipeline:** Built an end-to-end churn prediction system with XGBoost, CLV-based retention recommendations, and SHAP explainability, deployed via Docker and GitHub Actions.
- **Autonomous Data Analyst Agent:** Built a frameworkless AI agent that converts natural language to pandas code, self-corrects errors, and supports multi-turn chat with inline charts; deployed via FastAPI and Streamlit using LLaMA 3.3 70B.
- **Vision Transformer from Scratch | Computer Vision**: Implemented a Vision Transformer from scratch in PyTorch for CIFAR-10 classification, including custom patch embedding, multi-head self-attention, Transformer encoder blocks, model evaluation, and attention-map visualization.
- **Web Scraper RAG Chatbot | Generative AI / RAG**: Built a RAG-based chatbot that scrapes and processes website content using Selenium and BeautifulSoup, stores embeddings in ChromaDB, and generates context-aware responses using LangChain and Groq.

EDUCATION

M.Sc Artificial Intelligence 09/2023 – 06/2025
Sri Ramachandra Faculty of Engineering and Technology Chennai, TN

B.Sc Artificial Intelligence and Machine Learning 08/2020 – 07/2023
AJK College of Arts and Science Coimbatore, TN

CERTIFICATIONS

AI Essentials - Saïd Business School, University of Oxford (Coursera)

LANGUAGES

English | Malayalam | Hindi | Tamil
